

## Hockey sticks for Norwich-Dedza Partnership, Malawi!

Do you have any old hockey sticks lying around at home or in your club?

The Norwich – Dedza Partnership needs them!

The **Norwich-Dedza Partnership** works with schools and local communities in the region of Dedza, Malawi and students and staff from Easton and Otley College have just returned from their successful visit.

This year we found out that some high schools have introduced hockey into their sports programmes but cannot source enough hockey sticks.

Please help us to send out sticks this September by donating your old stick(s).....it doesn't matter how old they are.

If you have any balls too then they would be appreciated too!!

Please contact Jane Freeman to arrange collection and for more details :
